#### TRUCK DRIVER CLASSIFICATIONS

GROUP 1 - Mobile Batch Truck Tender

GROUP 2 - Greaser; Tire Changer; & Mechanic Tender

GROUP 3 - Single Axle Dump; Flatbed; Semi-trailer or Pole  
Trailer when used to pull building materials and equipment;  
Tandem Axle Dump; Distributor; Mixer; & Truck Mechanic

GROUP 4 - Euclid & Other Heavy Earthmoving Equipment &  
Lowboy; Articulator Cat; 5-Axle Vehicle; Winch & A-Frame when  
used in transporting materials; Ross Carrier; Forklift when  
used to transport building materials; & Pavement Breaker

WELDERS - Receive rate prescribed for craft performing  
operation to which welding is incidental.

Unlisted classifications needed for work not included within  
the scope of the classifications listed may be added after  
award only as provided in the labor standards contract clauses  
(29CFR 5.5 (a) (1) (ii)).

In the listing above, the "SU" designation means that rates  
listed under the identifier do not reflect collectively  
bargained wage and fringe benefit rates. Other designations  
indicate unions whose rates have been determined to be  
prevailing.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can  
be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on  
a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations

Wage and Hour Division

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board

U.S. Department of Labor

200 Constitution Avenue, N.W.

Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

**AMENDMENT NO. 2**  
**CONTRACTOR QUESTIONS AND RESPONSES**  
**FT. KNOX, KY – MRF RANGE**  
**OCTOBER 30, 2003**

**Item No. 1:** Sht. C-7 102mm x 102mm x 12.7mm x 100 galv. stl. angles for supporting timber ties to S.I.T. walls – 12.7mm is ½” thick. We have previously used ¼” which seems to be sufficient. Did Poly really want ½” or is this an error?

Response: 12.7 mm called out as per the Huntsville Corps standard drawings. 6.35mm (1/4”) may be used.

**Item No. 2:** Sht. C-9 Primary Service Road Detail Sht. C-4 Site Plan. Sht. C-7 Section A. C-7, section A shows a typ. “Target Service Road” to the rear of the S.I.T. and gravel path. Is this “Target Service Road” intended to be the same as the “Primary Service Detail” (graveled) or is this an earth subgrade road? C-4 identifies only a “Range Access Road”. In essence, are all the roads shown on C-4 intended to be governed by the “Primary Service Road” detail?

Response: The Primary Service Road is the road which runs down both sides of the range and behind the back row of targets. The Target Service Road are the roads which run behind the rows of targets. The Target Service Roads are to be constructed as shown on the detail shown on sheet C-7, section A. The Primary Service Road is to be constructed as shown on sheet C-9, “Primary Service Road”. The Range Access Road, which runs down the middle of the range, shall be constructed using the “Primary Service Road” detail on sheet C-9.

**Item No. 3:** Spec. section 02921a Seeding, para. 3.3.1 “Installing Seed” states that “Seeding method shall be by Broadcast Seeding Hydroseeding”. Para. 3.3.1.1 describes the broadcast seeding method and para. 3.3.2 describes the hydroseeding method. I thought that the broadcast seeding method and the hydroseeding method are two different methods. If so, can the broadcast method be used without any hydroseeding, or does the entire project require hydroseeding? Please clarify.

Response: Either method may be used to install the seed. The end result must meet the requirements of para. 3.10, “SEED ESTABLISHMENT PERIOD”.

**Item No. 4:** Regarding Option No. 2, Sanitary Sewer Force Main: Sheet C-59 plan view shows size to be 50 mm (2”). Sheet C-60 profile shows size to be 101.6mm (4”).

Response: Sheet C-60 is incorrect. Both sheets should call out a force main size of 50 mm (2 inches).
